「もつ鍋作戦会議」

大久保利通像

No more voters
will vote you with
such an ideal
Are you alright
with that ?

Remember now
you should push
that ideal
after - you
are elected

Therefore, I do understand that they have to claim that they will look after their home regions.

While checking the cabinet members, checking politicians are based on votes from their home regions.

Committing our blood thoughts and the system is the way for some stable future.

However, it must be noted that it is not pressing tasks for the members of the parliament to look after his home regions, his home association for such needs.

During the Daij-shunko, there was someone who said the same thing as you and failed.

Even with a big person like him, he'd be gone in.

Yamaguchi seems not, the situation for L's team straight would their situation.

Yama-guchi Tokutake right?

Is that to not stand
closer to what you
are saying, isn't it?

Yamaguchi never said,
"Even if everyone will hate me,
I'd like to have consumption tax
implemented for a stable government
in the future."

I am prepared to
die this moment.
I want this situation
to be my stopping
stone and let people
know my codes.

Stop talking
gibberish!

Idiot!

If you do that, we will
lose 4 to 70,000
voters we've secured
for many years!

ハカマ!!

If Sogabeke ever
says so, we will have
no choice but to
follow him.

As long as we are
here, that's what he
says is not wrong.
We need to find a
solution to make
his words convincing

He had written me
a letter saying that
he wanted Ryusuke
to carry on his
path !

No !
This is not
what Kaji
would want !

Kaji Ryusuke here will be known as a 2nd generation
politician to the voters !
You do realize that such candidates receive bad
impressions even before they begin !
You listened what he said !
He knows nothing here it works and is waiting
to push some idea !
This is the primary reason why people dislike
2nd generation politicians !

If there are no more second
waves, what is wrong with
pushing such a crowd that
one has kept aside for
many years ?
This is father's crowd !

I have absolutely
no intention to
show the face
that my father
has created.

Tsujigaki, please think over
if you and Ryugasaki can work on
a different path, that 100,000
votes will be divided by half
to win the election in Ryugasaki
region number one, you need a
minimum of 100,000 votes.
Both of you may fail.

I will show
50,000 and
sure 50,000
with my method!

It won't be half
I am guessing Ryugasaki
will get around
40,000 as
approximate votes

We need to place
our votes to win
votes!

Ryugasaki region
number one is
different from
number
two and three
where there are
clear winners

In order to win the election in this
region, you need to make your
votes understood that you are on
their side
Tsujigaki here has experience and
is proven with his past record.
On the other hand, Ryugasaki can
lose nothing

Triple,
diamond
corner-
paper

I see ...
It has become
complicated then ...
Do you have stuff?

He said he knew a few
numbers
He has already found
five numbers

I will have
thousands
and it takes
complicated
planning.

Here is a little "It's made of very basic ingredients, but the taste is incredible!"

I am a very often
about of being
started with your
method

There is currently a
trend that people
would like younger
politicians

It is unlikely that
I will earn votes
from farmers.
I was hoping to
get some votes
from younger
voters

*Espinoza was believed to
have been 45 years old and
he is 57 years old.
He is the youngest of all
candidates. I think we should
emphasize that point.*

*We have 5 other
candidates and
they are ready to
go. Well, they are
experienced after all.*

*I have great
reservations
about
candidate*

*That...
we might as
well open a
convent along
with your
speech.*

*I understand.
I believe that
we should
emphasize that
Espinoza was,
and his staff
are, naive.*

*They have been
already doing their
stuff for a week.*

*You can should contrast
what other candidates do.
We let people know that
Espinoza was and his staff
are new to this and
inexperienced, thus willing
to listen and not be arrogant.*

candidate?

THESE ARE THE THINGS THAT ARE GOING ON IN THE MINDS OF THE CANDIDATES.

*This election is going
to be historic.
Tanaka and you*

Oh

*You want this
marched Indians
in Hokkaido.*

*I will help spread your sight
over the entire Japan.
We can use thoughts for the
progress.*

*That is
a good
idea.*

*What I am trying to achieve
is to put fire on this area
by focusing everyone's
attention, who even I even
arrived in order for this area*

*This is also a part
of "being a grand
politician"*

*We should also emphasize
that Agatsuma was about the
hard way instead of going
for the easy way*
